Certified LeSS® Practitioner

The Certified LeSS Practitioner course is a highly interactive, in-depth course covering the LeSS principles, framework, rules, and guides. It provides essential information for adopting and continuously improving LeSS in your organisation using various thinking tools.

The course contains an overview of LeSS, stories of LeSS adoptions, and exercises and extensive Q&A sessions to ensure that the topics of greatest interest to participants are investigated in detail.

The Certified LeSS Practitioner course is for Project Managers, Development Managers and Product Owners, who already have basic Scrum knowledge, and for anyone who is involved in a large-scale adoption.

What participants will learn

- How to answer the question, 'why LeSS?'
- How to explain LeSS principles
- How to redesign any organisation for agility
- The reasons behind the LeSS organisational design
- Systems modelling techniques
- How to define your product
- How to advise on LeSS adoption
- How to coach the events in a LeSS Sprint
- How to coach LeSS roles
- How to separate the myths from the facts
- Real-world examples from an experienced instructor with years of experience

What participants will get

- Three days of high-quality instruction from an experienced LeSS trainer
- Access to supporting course material
- Certification as a Certified LeSS Practitioner with LeSS.Works
- An account on the LeSS.Works website, which contains additional information about LeSS, course information and options for staying in contact with course participants
- LeSS is a Scrum Alliance-approved scaling framework. Attendance at this course will earn you 24 Scrum Education Units (SEUs)
- Free lifetime access to our On-Demand Introduction to Agile & Scrum training

Please note that full attendance is mandatory in order to be registered for the associated certification.

Who should attend

☑ Project / Product Owner, Development Managers, Agile Coaches, Scrum Masters, Transformation Team

Prerequisites

Ideally, attendees will have taken a Certified ScrumMaster course, or be thoroughly familiar with Scrum introductory materials.
