

Certified Scrum Product Owner®

The [Certified Scrum Product Owner® \(CSPO\)](#) course is a highly interactive, experiential (learn through doing) course that informs, educates, and empowers delegates to become great Product Owners within the Scrum framework.

Participants will get a thorough introduction to Agile & Scrum and the tools they need to get started with Scrum in their organisation, and how to be a great Product Owner.

The course is aimed at those who are performing, or about to take over, the role of the Product Owner.

It is also suitable for business analysts, project managers, product managers, line managers, ScrumMasters, and all who wish to deepen their knowledge of Scrum and Product Ownership.

What participants will learn

- Introduction to agile and how to operate in a climate of complexity and rapid change
- Deep dive into the Scrum framework, including roles, artefacts and events
- An end-to-end simulation of how to get going with a product
- How to craft an inspiring Product Vision and Roadmap
- User story mapping, writing and splitting user stories
- Advanced Product Backlog Management and prioritisation techniques
- How effective, multi-level planning and forecasting work with Scrum
- Separating the myths from the facts
- Real-world examples from an instructor with 12+ years of experience

What participants will get

- An immersive learning experience facilitated by a highly respected Certified Scrum Trainer® (CST)
- Access to supporting course material
- Registration for the [Certified Scrum Product Owner® \(CSPO\)](#) certification
- [Two-year membership of the Scrum Alliance](#) worth \$100 – gives you access to exclusive Scrum Alliance member features and content
- 16 [Scrum Education Units \(SEUs\)](#)
- [Project Management Professionals® \(PMP\)](#) can claim 14 PMI PDUs
- Free lifetime access to our [On-Demand Introduction to Agile & Scrum](#) training

This course requires minimum attendance of 16 hours. Please note that full attendance is mandatory in order to be registered for the associated certification.

Who should attend

- Beginners in agile and scrum.

Prerequisites

If you have time to do so before the course, please refresh your understanding of Scrum by reading the Scrum Guide.
