

# Leading SAFe® - Certified SAFe Agilist

During this two-day [Leading SAFe® - Certified SAFe® Agilist](#) course, attendees will gain the knowledge necessary to lead a Lean-Agile enterprise by leveraging the Scaled Agile Framework® (SAFe®), and its underlying principles derived from Lean, systems thinking, Agile development, product development flow, and DevOps.

They will discuss the five competencies needed to become a Lean Enterprise. They will also learn and practice the skills for supporting and executing PI Planning events, and coordinating multiple Agile Release Trains (ARTs).

Attending the class prepares individuals to take the exam and become a Certified SAFe® Agilist.
