

Certified Scrum Professional Scrum Master®

The [Certified Scrum Professional Scrum Master® \(CSP-SM\)](#) programme is a highly interactive, in-depth course that builds on the foundational Scrum values, practices and applications of the Advanced Certified Scrum Master course. The CSP-SM course deepens and enhances Scrum knowledge and skills through an interactive workshop and focused coaching.

Upon completion of the course, successful participants receive the title Certified Scrum Professional Scrum Master from [Scrum Alliance](#).

In this CSP-SM course, participants will take a look at what makes the difference between a good Scrum Master and a great one, including the tools and practices they will need to help increase their teams' agility and responsiveness.

What participants will learn

- How to facilitate dialogue among the Product Owner, team members, customers, stakeholders, and executives
- How to respond confidently when encountering resistance to change, lack of engagement, low motivation, and unavailability of key people
- How to help your company adopt Scrum and support executives committed to agile values
- How to remove impediments that prevent long-term, deep adoption of Scrum and agile methodologies by all parts of the business
- How to explain the value of the agile Scrum framework and processes to sceptics
- How to increase developer engagement to encourage greater accountability, commitment, and buy-in
- How to leverage your learning to gain recognition and status as the agile expert in your company

What participants will get

- An immersive learning experience facilitated by a highly respected [Path to CSP Educator](#)
- Registration for the [Certified Scrum Professional Scrum Master \(CSP-SM\)](#) certification
- Access to supporting material
- 12 months free access to our [On-Demand Introduction to Coaching](#) course

This course requires minimum attendance of 16 hours. Please note that full attendance and successful completion of the pre/post work is mandatory in order to be registered for the associated certification.

Who should attend

- Experienced Scrum Masters

Prerequisites

Must already have Advanced Certified ScrumMaster (A-CSM) certification and two years' experience working as a Scrum Master.
